

OUR QUALITY POLICY

Built Right. On Time. Ready for Surgery.

Every Complexus instrument ends up in a surgeon's hands. We are each personally responsible for that.

WE COMMIT TO

01

Build it right

Meet customer, regulatory, and ISO requirements, every part, every time.

02

Deliver on our promises

On time, with no surprises.

03

Get better every day

Keep our quality system effective, and use data, training, and every employee's ideas to prevent problems.
